

## **Volker Laser Ltd**

HTC recently installed a top guided Speed Gate on behalf of Volker Laser for the newly refurbished car park at The Thistle Hotel, Brighton Sea Front. The car park entrance provides access for both hotel guests and Brighton City Council staff who occupy the adjacent building.

The Speed Gate provides fast and efficient access and integrates perfectly with the councils proximity card access system, the hotel intercom system, and the public pay-on-foot system.

Volker Laser are one of the UK's leading car park refurbishment companies and provide a complete car park development service.
